DEPILATION

A professional portable unit with full function digital display, timer display, digital Display.

Helps in treatment of removing unwanted hair permanently without pain.

Electric Depilation is easier and more effective

It guarantees definitive hair removal via thermo-coagulation. Its easy handling and effective results make it the basic unit for electric depilation.

Mode of Action And Treatments

Treatment is based on the application of a high-frequency current through a tweezer, thereby causing thermal destruction (Thermo-coagulation) of the hair root. To cater for all requirements, the versatile DEPILATION enables you to regulate the output power via UP & DOWN key.
