

DEPILATION-SPOT REMOVER

DSR-Dx 07

DEPILATION-SPOT REMOVER

A professional portable unit with full function digital display, timer display, digital Display.

Helps in treatment of removing unwanted hair permanently without pain.

Electric Depilation/Mole is easier and more effective

It guarantees definitive hair removal via thermo-coagulation. Its easy handling and effective results make it the basic unit for electric Depilation/Mole.

Mode of Action And Treatments

Treatment is based on the application of a high-frequency current through a tweezer, thereby causing thermal destruction (Thermo-coagulation) of the hair root. To cater for all requirements, the versatile DSR-Dx 07 enables you to regulate the output power via Rotary key.

TECHNICAL SPECIFICATION

Product Name	: DEPILATION/SPOT REMOVER
Model No.	: DSR-Dx 07
Physical Characteristics	: Weight : 2.3 Kg. Height : 5.5" Width : 10.5" Depth : 7.5"
Complies With	: IEC601-1 Classification
Safety Class	: I
Type	: ⚡
Operating Temperature	: 10° - 50°
Storage Temperature	: -10° - 70°

DEPILATION

Voltage	: A/C 220-Volt 50 Hz.
Absorbed Power	: 60 VA
Max. RF Output Power	: 3-Watt
Frequency	: 13.5 Mhz.

SPOT REMOVER

Voltage	: A/C 220-Volt 50 Hz.
Max. Output Power	: 10-Watt

Read instructions before use.
